SECRETARY TAFT'S VISIT TO JAPAN.

The Viedmosti Sharply Criticises It and Says it is Very laepportune.

POLITICAL MEANING.

Declares That Efforts to Prove That it Has Not Are "Child.

st. Petersburg, July 27 .- The, substance of the interview in New York with M. Sato, spokesman of the Japgrese peace envoys, on the proposition of Japan in the peace negotiations, was reproduced in the papers here and passed almost without comment, only the Novoe Vremya, indulging in a sarcastic fling, saying that "Japan has conducted the war quite economically, chiy \$1,000,000 a day, but she had better present the bill to those who are furnishing the sinews of war and not to the country upon which the war was preed."

A supplementary statement specify-ing the cessation of the island of Sak-hain and fixing the amount of the indemnity for the cost of the war con tained no surprises and caused but lit tailed he surption circles directly in-terested. The boerse was not affected. The Viednosti takes the occasion to direct sharp criticism at the visit of Secy of War Taft and Miss Roosevelt Secy of War Taft and Miss Roosevelt to Japan, and complains that the moment for the trip was tactlessly chosen. The paper adds that the efforts to prove that the visit to the Land of the Rising sun is devoid of political meaning is "childlike."

The war party is again making head-way, drawing capital from Gen. Line-vitch's optimistic telegrams, one of which, with the emperor's reply de-claring that the misfortunes of war-have not shaken his belief in the cour-age and devotion of the army and con-taining a glowing wish that the troops may bring the war to a happy con-clusion, is published in all the papers. No furthan news has been received here of the landing of Japanese troops in the coast of Siberia or of the oper-stions in Korea. Though accompanied ations in Korea. Though accompanied by constant skirmishing, the steady pressure of the Japanese northward has pressure of the Japanese northward has not developed serious fighting yet. The papers mention the purchase by Japan of eight steamers from Russian and German owners, which vessels are sup-josed to be intended for the transporta-

josed to be intended for the transporta-tion of prisoners of war.

In diplomatic circles a general feel-ing of surprise is professed that Japan has shown her cards to such an ex-tent before the meeting of the plenipo-tentiaries. There is no unity of opinion regarding the prospects of peace. It is realized that much will depend on the extent to which M. Witte has been instructed to push opposition to the the extent to which M. Witte has been instructed to push opposition to the payment of an indemnity. Though one prominent diplomat told the Associated Press that according to his information. Witte has been instructed to refuse absolutely the payment of a flat indemnity, other sources are less sure of the facet nature of these instructions.

Washington, July 27.—Director of the Census North denies that census report contains data on which the state-ment could be based that only 25 per cent of the 15,000,000 families in the United States have annual incomes of more than \$600.

Nervous Women

Their Sufferinge Are Usually Due to Uterine Disorders Perhaps Unsuspected

A MEDICINE THAT CURES

The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organizm which makes her a woman. Fits of depression on restlessness and ritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the ovaries and between the shoulders. Loss of voice; aerrous dyspepsia. A tendency to cry at the least provocation. All this points to nervous prostration.

Nothing will relieve this distressing ondition and prevent months of pros-ration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Mrs. M. E. Shotwell, of 103 Flatbush Arenne, Brooklyn, N. Y., writes:

"I cannot express the wonderful relief I have experienced by taking Lydia E. Pinklams Vegetable Compound. I suffered for the long time with nervous prostration, backlebs, headsche, loss of appetite. I could so sleep and would walk the flooresimost may night.

seep and would walk the floor-almost rety night.

"I had three doctors and got no better, and ite was a burden. I was advised to try lydia E. Pinkham's Vegetable Compound, that has worked wonders for me.

"I am a well woman, my nervousness is all the and my friends say I look ten years founder."

Will not the volumes of letters from women made strong by Lydia E. Pinkbam's Vegetable Compound convince all women of its virtues? Surely you sanot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as ther women.

A TINSMITH ALARMED BY THE TREM-BLING OF HIS LIMBS.

Finds Out How to Regain Control of His Nerves and is Freed from the Greatest Anxiety.

It is a much easier task to meet the attack of an open enemy than to dwell in constant dread of an assault in the dark that is vaguely hinted at and may dark that is vaguely hinted at and may come at the first unguarded moment. Hints of possible hervous break-down may well territy any workingman for his command over his nerves is a large part of his capital. Mr. William Browne, or No. 1019 Lincom street, St. Joseph, Mo., is an expert tinner in the employ of the National Biscuit Co. He tells the following story of a trying experience,

experience.

"In the spring of 1902," he says, "while I was regularly working at my trade, I grew somewhat careless in my habits of eating and drinking, and finally found that my appetite was fickle, a bad taste lingered in my mouth, my nerves twitched and were beyond my control, my kidneys were out of order and cold sweats would break out over my body at odd times. Perhaps, while I stood talking with some one, this trembling of the limbs, and profuse sweating, and a severe chill would selze me. I became alarmed at my condition, and, having read an advertisement of Dr. Williams Pink Pills, I got a box and began to use them. They helped me at once. After I had used one box the twitching of the nerves the trouble with the stomach and the cold sweats stopped and have not recold sweats stopped and have not re-appeared, and my appetite is good. I have told several friends that Dr. Williams' Pink Pills are all right and I recommend them to everybody."

Much has been said and written re-cently about medicines that contain alcohol and, while most of the criticism alcohol and, while most of the criticism has been unnecessarily alarming, it is evident that a remedy in pill form is certain to be free from objection on this score. Furthermore, Dr. Williams' Pink Pills for Pale People are absolutely guaranteed to be entirely harmiess to the most delicate constitution and may be taken without fear. They have cured thousands of cases and if you will write to the Dr. Williams Medicine Co., Schenectady, N. Y., stating your trouble you will receive a frank .epiv. If the pills wi' cure you, proof will be furnished; if they are not suited for your trouble, you will be honestly told so.

ASBURY PARK HOTEL MEN Arrested for Violating New Jersey Prohibition Law.

New York, July 28 .- Asbury Park ho-

New York, July 28.—Asbury Park hotel men and restaurant proprietors who were supposed to maintain quiet little rooms where thirsty patrons could indulge in something stronger than iced tea, despite the prohibition law in the New Jersey resort, have been thrown into a state of consternation by the arrest yesterday of 14 of their number. It was declared that 40 more warrants will be issued today or tomorrow. Securing evidence upon which warrants could be issued has up to the present time been a difficult problem for the district attorney.

Thirsty looking detectives sent out by the prosecutor were greeted with a blank stare when they hinted that their lives might be saved by violation of the Ocean Grove mile limit law. Sportive looking men who arrived at the various hotels with a flourish and began hinting about aridity hinted to deaf employes. A pretty young woman detective from New York was finally called in and through her efforts the needful evidence was easily procured. All those arrested pleaded not guilty, and were placed under bond for trial.

CHEAP STOGIES

Arrests Anticipated in New York As Result of Their Seizure.

New York, July 28.—Arrests are anticipated here within a short time as the result of a seizure of cheap stogies reported by Associated Press dispatches from St. Louis. The consignment taken by government agents, numbered 48,000 and bore internal revenue stamps which are alleged to have been used once and from which the agreealest pressure and from which the cancellation marks had been washed with acid. An investigabeen washed with acid. An investigation has been in progress several months among the manufacturers in Hester and Mulberry streets and Internal Revenue Collector Anderson, a negro recently appointed for the Southern district of New York, was much concerned yesterday over a charge that the illegal shipments may have been made possible by collusion with one or more of his deputy collectors. He was unwilling to believe such a charge well-founded.
